

Wake Me Up

Close your eyes it doesn't feel so bad
I can't keep seeing you so sad
Where the hell do we go from here
We can't keep living in such fear

Self-loathing's gonna drive you mad
Something I deny that I ever have
It's ok not to be ok
It's not ok to treat me this way

Wake me up cus I'm still stuck
Wake me up wake me up
Wake me up so we can start breathing

Let me go so I can take hold
Let me go let me go
Let me go so we can start healing

Thrust a knife into my heart
Release the pain and leave a scar
Remind me of how far we've come
To never look back but to build as one

Wake me up cus I'm still stuck
Wake me up wake me up
Wake me up so we can start breathing

Let me go so I can take hold
Let me go let me go
Let me go so we can start healing

Chemicals

When it reaches closing time I know that I'd want more,
but I know right now you're standing waiting at my door

Even though I don't mean to I know I'd still ignore,
everything you said to me just the night before

I'd bleed for you
I need for you
But those chemicals in my mind set
Free me from you

I've called wolf 10 time's or more and now It's pretty clear,
What I say and what I want are different things my dear

I'd bleed for you
I need for you
But those chemicals in my mind set
Free me from you

Be Brave

Just for today then you're home again
Just for today then you're home again

Be brave little one, come out swinging
Take aim little one, it's just beginning
Stand out in the rain, keep on singing
Dream big little one, while the world keeps spinning

I was as scared as you ever were
Take your time to work it out
I can't do it for you
Be brave

Speak out little one, load and clear
Believe little one, you'll make things better
Grey days in the hazy sun, find your shimmer
Be brave little one, as your heart grow bigger

I was as scared as you ever were
Take your time to work it out
I can't do it for you
Be brave

Just for today then you're home again
Just for today then you're home again
